	Wealden's Current Housing Requirements	3
	Housing Delivery Test Results	6
	Five Year Housing Land Supply and Deliverable Sites	8
	Past Housing Delivery Rates and Lead in Times	10
	The Covid-19 Pandemic and Housing Delivery Rates	15
	Economic Climate and Market Conditions	16
	The Council's Five Year Housing Land Supply Position	17
3.	Appendices	
	Appendix 1: Small Sites with Planning Permission	20
	Appendix 2: Large Sites with Detailed Planning Permission	35
	Appendix 3: Large Sites with Outline Planning Permission <sup>1</sup>	37
	Appendix 4: Use Class C2 with Planning Permission	39

 $^{\scriptsize 1}$  Or a resolution to grant outline planning permission subject to the completion of Section 106 agreement.

#### 1. Introduction

1.1 It is a legal requirement<sup>2</sup> that where planning policies identify an annual number of dwellings to be delivered in a district that this is set out in the Council's Authority Monitoring Report (AMR) for their current plan period (the adopted Wealden District Core Strategy Local Plan<sup>3</sup> runs until 2027). Furthermore, the National Planning Policy Framework (NPPF) (July, 2021) confirms that strategic policies should include a trajectory illustrating the expected rates of housing delivery over the plan period, and that all plans should consider whether it is appropriate to set out the anticipated rate of development for specific sites. Paragraph 74 of the NPPF states that local planning authorities:

'should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old<sup>4</sup>'.

- 1.2 The following housing land supply statement summarises the main outcomes of housing provision within Wealden District and provides the current position of Wealden District Council in relation to its housing requirement and land supply for the monitoring period, including its five year housing land supply position as of the 1 April 2021 under the current NPPF (July, 2021).
- 1.3 As such this document fulfils the following functions:
  - It meets the NPPF requirement to annually monitor housing delivery;
  - It provides guidance to developers and other interested parties on the current supply of housing sites within district; and
  - It provides information on the anticipated delivery ('trajectory') of housing development in Wealden District.

<sup>&</sup>lt;sup>2</sup> See the <u>Town and Country Planning (Local Planning) (England) Regulations 2012 under Regulation</u> 34(3).

<sup>&</sup>lt;sup>3</sup> The Wealden District Core Strategy Local Plan (adopted February 2013)

<sup>&</sup>lt;sup>4</sup> Unless these strategic policies have been reviewed and found not to require updating. Where local housing need is used as the basis for assessing whether a five year supply of specific deliverable sites exists, it should be calculated using the standard method set out in national planning guidance.

#### 2. Housing Land Supply and Housing Trajectory

#### Wealden's Current Housing Requirements

- 2.1 Policy WCS1 (Provision of Homes and Jobs 2006-2027) of the Wealden District Core Strategy Local Plan (February, 2013) sets a housing target of 9,440 dwellings over the period 2006 2027, which equates to 450 dwellings per annum (dpa). The Council accepts that the evidence base underpinning housing need within the adopted Wealden District Core Strategy Local Plan (February, 2013) is out of date. National planning policy states that Local Plans over five years old cannot be said to have up-to-date housing requirement policies.
- 2.2 The NPPF (July, 2021) states that to determine the minimum number of homes needed within the local authority area, strategic policies should be informed by a local housing need assessment, conducted using the standard method in national planning guidance unless exceptional circumstances justify an alternative approach which also reflects current and future demographic trends and market signals. A five year housing land supply position for Wealden District Council (as of 1 April 2021) has therefore been based on the 'standard method' for calculating housing need, given that the Council's own adopted housing requirement policy is now considered out of date.
- 2.3 This calculation aligns with national planning guidance<sup>5</sup> and sets a baseline using the 2014 Household Growth Projections between 2021 and 2031 for Wealden District, an adjustment to take account of affordability (using median workplace-based affordability ratio for Wealden District (2020)) and a cap for a level of increase based on affordability. This calculation produces a housing needs requirement for Wealden District of **1,221** dwellings per annum (dpa) and is shown in full below.

3

<sup>&</sup>lt;sup>5</sup> See PPG – Paragraph: 004 Reference ID:2a-004-20190220

#### Figure 1 - Standard Method for Calculating Housing Needs within Wealden District (2021-2031)

### <u>Step 1 – Setting Baseline, 2014 Household Growth Projections</u>

Year	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031
Household Growth Projections	72	73	74	75	75	76	77	78	79	80	81
Expanded Household Growth Projections	71892	72773	73664	74551	75421	76302	77179	78050	78919	79767	80612
Projected Annual Household Growth for Ten Year Period		881	891	887	870	881	877	871	869	848	845

Total Household Growth for Ten Year Period	8720
Projected Average Annual Household Growth over a Ten Year Period	872

#### Step 2 – An Adjustment to take Account of Affordability

Median Workplace-Based Affordability Ratio for Wealden District (2020)	11.57
Adjustment Factor	1.473125

Adjustment	Factor	Multiplied	by	Projected	Average	Annual	1,285
Household Growth							

#### Step 3 – Capping the Level of any Increase

The Wealden District Council Core Strategy was adopted in February 2013 and is therefore considered out of date, so the following steps are applied.

Average Annual Household Growth over 10 years (Step 1)	872
The Minimum Annual Local Housing Need Figure (Step 2)	1285

The cap is set at 40% above the most recent average annual household growth figure (i.e. step 1) or at the minimum annual local housing need figure (i.e. step 2).

Average Household Growth Cap = 872 + (40% x 872)	1,220.8
--	---------

The capped figure is lower than the minimum annual local housing need figure and therefore limits the increase to the local authority's minimum annual housing need figure. Therefore, the minimum housing target for **Wealden District is 1,221 dpa**.

2.4 It should be noted that the current Planning Practice Guidance (PPG)<sup>6</sup> explains that the 'standard method' for calculating the housing needs requirement for local authorities already takes account of historic undersupply. It states that the affordability adjustment is applied to take account of past under-delivery. The standard method identifies the minimum uplift that will be required and therefore it is not a requirement to specifically address under-delivery separately.

#### Housing Delivery Test (HDT) Results

- 2.5 The Housing Delivery Test (HDT) was first introduced with the revised NPPF that was initially published in July 2018 and most recently revised in July 2021<sup>7</sup>. The mechanisms for the HDT were outlined within the revised NPPF and in the Housing Delivery Test Measurement Rule Book<sup>8</sup> and has been applied across all local planning authorities in the country (with the exception of National Parks). This mechanism was introduced as a way to monitor whether local planning authorities are building enough homes to meet their respective housing requirements over a three year period.
- 2.6 The NPPF (July, 2021) states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement as set out in their adopted strategic local plan, or against their local housing need requirements where the strategic policies are more than five years old. It notes that the supply of specific deliverable sites should in addition include a buffer (moved forward from later in the Plan period) of:
  - a) 5% the minimum buffer for all local authorities, necessary to ensure choice and competition in the market for land, where they are not seeking to demonstrate a five year housing land supply; or
  - b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted local plan, to account for any fluctuations in the market during that year; or
  - c) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving planned supply<sup>9</sup>.
- 2.7 The latest PPG<sup>10</sup> states that for local planning authorities which deliver less than 85% of their identified housing requirement, a 20% buffer will be added to their housing land supply, with immediate effect from publication of the HDT

<sup>&</sup>lt;sup>6</sup> See PPG – Paragraph: 011 Reference ID: 2a-011-20190220

<sup>&</sup>lt;sup>7</sup> See paragraph <u>76 of the NPPF (July, 2021)</u>

<sup>&</sup>lt;sup>8</sup> Housing Delivery Test Measurement Rule Book (July 2018)

<sup>&</sup>lt;sup>9</sup> Footnote 41 of the NPPF (July, 2021) confirms that this will be measured against the HDT, where this indicates that delivery was below 85% of the housing requirement.

<sup>&</sup>lt;sup>10</sup> See PPG – Paragraph: 022 Reference ID: 68-022-20190722

results. Only a 5% buffer would apply where the local planning authority has results of at least 85% for its HDT and where they are not seeking to demonstrate a five year housing land supply position.

2.8 Table 1 below outlines the sanctions and consequences for local planning authorities that do not deliver against their housing requirements.

Table 1: HDT Sanctions over Time

Date From	% delivered of annual housing requirement	Sanctions
November 2018 and onwards	< 95%	Action Plan
November 2018 and onwards	< 85%	20% land buffer
November 2020 and onwards	< 75%	Presumption in favour of sustainable development

- 2.9 The total number of homes delivered by Wealden District Council during the three year period under the latest HDT measurement (2020) between 2017-18 and 2019-20 was 2,366 (net) dwellings, whilst the total number of homes required over the same period was 2,862<sup>11</sup>. Therefore, the HDT measurement for Wealden District Council in 2020 was 83%<sup>12</sup>.
- 2.10 The implications of this result means that the Council is required to use a 20% buffer for its five year housing land supply position rather than the 5% buffer previously used in the previous Five Year Housing Land Supply Statement (December, 2020). Therefore, the Council can confirm that it's five year housing land supply requirement, incorporating the 'standard method' under the NPPF (July, 2021) is as follows in Table 2 below.

<u>Table 2: The Five Year Housing Land Supply Requirement under the 'Standard Method'</u>

Wealden District Council Five Year Land Housing Requirement – Standard Method

<sup>&</sup>lt;sup>11</sup> The first national lockdown for Covid-19, announced on 23 March 2020, was an unprecedented event which saw temporary disruption to local authority planning services and the construction sector. This was reflected by the Government's HDT measurement for 2020 that saw a reduction for all local authorities in the 'homes required' within the 2019-2020 year by a one month.

<sup>&</sup>lt;sup>12</sup> Housing Delivery Test: 2020 Measurement

Five Year Housing Requirement (i.e. 1,221 x 5)	6,105 (net) dwellings
20% buffer (20% of 6,105)	1,221 (net) dwellings
Five Year Housing Requirement including buffer	7,326 (net) dwellings

#### Five Year Housing Land Supply and Deliverable Sites

2.11 Wealden District Council is in a position to update its five year housing land supply and delivery position for 1 April 2021. The NPPF (July, 2021) requires that sites included in the five year supply calculation should be 'deliverable'. This is defined in the glossary<sup>13</sup> as the following:

'To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

- a) Sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans); and
- b) Where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on sites within five years.
- 2.12 Major development for housing is defined as:

'development where 10 or more homes will be provided, or the site has an area of 0.5 hectares or more'.

- 2.13 The PPG<sup>14</sup> confirms that sites that fall within the latter category, such as sites with extant outline planning permissions for major development, will require further evidence to be considered deliverable and this may include the following:
  - a) current planning status for example, on larger scale sites with outline or hybrid permission how much progress has been made towards approving

<sup>&</sup>lt;sup>13</sup> National Planning Policy Framework (NPPF) (July, 2021), Annex 2: Glossary

<sup>&</sup>lt;sup>14</sup> See PPG – Paragraph 007: Reference ID: 68-007-20190722

- reserved matters, or whether these link to a planning performance agreement that sets out the timescale for approval of reserved matters applications and discharge of conditions;
- b) firm progress being made towards the submission of an application for example, a written agreement between the local planning authority and the site developer(s) which confirms the developers' delivery intentions and anticipated start and build-out rates;
- c) firm progress with site assessment work; or
- d) clear relevant information about site viability, ownership constraints or infrastructure provision, such as successful participation in bids for large-scale infrastructure funding or other similar projects.
- 2.14 The components of the Council's five year housing land supply position have been set out in the appendices to this five year housing land supply statement. They set out the sites which are expected to deliver for housing between 1 April 2021 and 31 March 2026.
- 2.15 Appendix 1 is a list of sites of 1-9 (net) dwellings that either have outline or detailed planning permission as of 1 April 2021. Those sites with 5 or more (net) dwellings have been detailed with a timeline for their completion in the next five year period and also whether they have commenced works on the site (this is indicated by the paler green/blue colour for those sites which have commenced). Those sites with 4 (net) dwellings or fewer have simply been listed. The total number of net dwellings that fall into this category amounts to 815.
- 2.16 Appendix 2 is a list of sites with 10 or more (net) dwellings which have detailed planning permission and/or are under construction as of 1 April 2021. Those sites which have commenced as of 1 April 2021 are clearly outlined in a paler green/blue colour and incorporates the majority of sites in this category. The total number of net dwellings that falls into this category and are anticipated to be delivered within the next five year period is 2,181.
- 2.17 It is Council's position that all sites in appendix 1 and 2 should be considered deliverable as there is no clear evidence that those homes will not be delivered within the five year period. This amounts to 2,996 (net) dwellings in total.
- 2.18 Appendix 3 sets out a list of sites which either have outline planning permission for major development or are subject to a resolution to grant outline planning permission (subject to a Section 106 Agreement), where there is clear evidence that the homes will be delivered within the next five year period. Where site specific evidence is available, this will be detailed if required as part of the planning appeal process. The total amount of net dwellings that fall into this

- category and are expected to come forward within the first five year period amounts to 2,265.
- 2.19 Appendix 4 sets out a list of sites that involves the proposed loss or gain in older person's accommodation (Use Class C2) that can now be taken into account for the Council's five year housing land supply position. The PPG<sup>15</sup> confirms that local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, as part of our housing land supply. This contribution is based on the amount of accommodation released in the housing market and the average number of adults living in households that was 1.8 at the time of the 2011 Census. This is the figure that has been used to translate bed spaces to dwellings (Use Class C3) in line with national planning guidance.
- 2.20 The total amount of net dwellings (equivalent) that fall into this category and are expected to come forward within the first five year period amounts to 101. It should be noted that the scheme at Bircholt Retirement Home, Ninfield has resulted in the loss of 26 bed spaces (Use Class C2) and is only being replaced with 6 (net) dwellings (Use Class C3) so has resulted in a loss overall. The second scheme at Little Mount Farm, Frant resulted in the gain of 146 bed spaces (Use Class C2) and the loss of a single dwelling. The last scheme at Land to the West of Stone Cross Garden Centre results in the gain 70 bed spaces (Use Class C2) equivalent to 39 (net) dwellings.
- 2.21 Evidence on housing delivery in the district also supports the Council's assumptions with regards to the robustness of the sites included in the supply, including lead in times and past delivery rates and this is considered below.

#### Past Housing Delivery Rates and Lead In Times

- 2.22 In terms of recent housing delivery rates and lead in times, specifically from the determination of the initial outline planning application to the first housing completions, the Council has identified a number of sites with extant planning permissions that have commenced and yielded some housing completions at least by the 2020/21 monitoring period to demonstrate both lead in times, and moreover, historic delivery rates for larger housing sites within the District. A total of nine housing sites have been identified, split between sites with over 200 dwellings total and sites of between 100 dwellings and 200 dwellings total.
- 2.23 Table 3 below shows lead in times and actual delivery rates for four developments of over 200 dwellings (gross) within Wealden District. This includes two sites to the north of Hailsham, a single site in Stone Cross and a

<sup>&</sup>lt;sup>15</sup> See PPG – Paragraph 035: Reference ID: 68-035-20190722

single site in Uckfield. The table also shows lead in times and actual delivery rates for five developments of between 100 and 200 dwellings (gross) within Wealden District. This includes two sites at Hailsham, a single site in Crowborough, Heathfield and Stone Cross. All the developments were initially granted outline planning permission following the adoption of the Wealden District Core Strategy Local Plan in February 2013.

Table 3: Delivery Rates and Lead in Times for Large Sites within Wealden District

Site Name	Initial Outline Planning Permission Granted	Total (Gross)	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21
	Site	es with Extant F	Planning Po	ermission (	of 200 dwe	ellings +				
Land West of Park Road, Hellingly	02/10/13	240	0	0	0	47	86	28	33	20
Land East of Park Road, Hellingly	30/04/14	460	-	0	0	0	0	76	176	39
The Wells, Rattle Road, Stone Cross	28/10/13	276	0	0	8	85	82	87	14*	-
Land West of Uckfield	24/03/16	1,000	-	-	0	0	0	3	50	45
	Sites with E	xtant Planning	Permissio	n of betwe	en 100 an	d 200 dwe	llings	l		
Land at Walsh Manor Farm, Crowborough	18/12/15	160	-	-	0	0	0	5	65	31
Land off Mill Road, Hailsham	01/06/16	165	-	-	-	0	0	63	63	35

Land Rear of Police Station, High Street, Heathfield	26/02/14	115	0	0	0	0	20	57	38*	-
Land South of Rattle Road, Stone Cross	09/04/13	120	0	0	0	0	53	51	16*	-
Land off Amberstone, A271, Hailsham	14/10/16	110	-	-	-	0	0	31	62	17*

<sup>\*</sup>The site has now completed.

- 2.24 Table 3 demonstrates that all nine housing sites, when outline planning permission was granted, were able to deliver new homes within the first five years following an outline planning permission, with three sites delivering new homes on the third year, three sites delivering new homes on the fourth year and three sites delivering new homes on the fifth year. This demonstrates that even the largest of sites in Wealden District, such as Land West of Uckfield (1,000 (net) dwellings) has seen dwelling completions approximately three years after the initial outline planning application was determined. This shows that lead-in times are relatively short in Wealden District from the initial outline planning permission to the first housing completions on site, which usually takes between 3 and 4 years. This is in part due to the rural nature of the district and lack of previously developed land, with many housing development sites coming forward on undeveloped greenfield land. It is therefore considered that sites with outline planning permission in Wealden District will come forward promptly, with housing completions in the initial five year housing land supply period, particularly in years 3, 4 and 5.
- 2.25 In terms of housing delivery rates, it is shown that three of the four sites of over 200 dwellings have exhibited delivery rates of 76 dpa and above (the highest rate being 176 dpa at Land East of Park Road, Hellingly in the 2019/20). It should be noted that there was a clear downturn for the 2020/21 period, but this is not unexpected given that the Covid-19 pandemic cause closures of construction sites in 2020 specifically. For the smaller sites of between 100 and 200 dwellings, all of the sites have exhibited delivery rates of over 50 dpa and above (the highest rate being 65 dpa for Land at Walsh Manor Farm, Crowborough in 2019/20). As a consequence, the Council has sought to use the delivery rates of 75 dpa for housing sites of 200 dwellings or over and delivery rates of 50 dpa for housing sites of between 100 and 200 dwellings as a guide for new housing development coming forward.
- 2.26 It should be noted that each individual housing site below 100 dwellings and over 5 (net) dwellings have also been considered in terms of their lead in times and delivery rates. This will vary from site to site dependant on their scale and the type of permission granted (i.e. a full planning permission would normally be quicker than the outline planning permission and reserved matters process), but would be limited to 30 dpa for sites under 100 (net) dwellings, unless otherwise known from previous delivery rates.
- 2.27 The monitoring of completion rates for individual housing sites each year may suggest that some housing developments should diverge from the delivery rates identified in order to reflect actual completion rates as they emerge. This is routinely reviewed each year and is updated in accordance with actual housing completions if necessary. It should be noted that the Council has a dedicated monitoring officer for both housing and employment development

who regularly checks new housing commitments and commencement notices, as well as visiting larger housing sites (i.e. 5 (net) dwellings or above) at least once a year to check published completion rates. This ensures that the Council's records are accurate in terms of delivery rates and lead in times on individual sites.

#### The Covid-19 Pandemic and Housing Delivery Rates

- 2.28 It should be noted that the Covid-19 pandemic has impacted the delivery rates on sites across Wealden District during the 2020/21 monitoring period. The national lockdown introduced on 23 March 2020, resulted in the complete closure of construction sites for the foreseeable future. The lockdown was lifted for construction and manufacturing in mid-May 2020; however, the impact on delivery rates has been profound. Furthermore, the lockdown has helped to cause a significant shortage of some building materials and products required in the construction industry.
- 2.29 During the 2020/21 monitoring period, there were 722 (net) dwelling completions, which is lower than the 1034 net dwelling completions achieved in the 2019/20 monitoring period. Table 3 above demonstrates that in comparison to previous years, the delivery rates on the districts largest sites has also fallen. For example, this is clearly demonstrated for the Land East of Park Road, Hellingly site, which achieved 176 (net) dwelling completions in the 2019/20 monitoring, but could only deliver 39 (net) dwelling completions in the 2020/21 monitoring period.
- 2.30 The government did seek to mitigate the impact of the Covid-19 pandemic on delivery rates in the construction industry for the 2020/21 period. The Ministry for Housing, Communities and Local Government (now known as the Department for Levelling Up, Housing and Communities) will subtract four months from the 2021 HDT calculation for the 2020/21 period to account for potential fluctuations in construction output.
- 2.31 The government also introduced the Business and Planning Act 2020<sup>16</sup>, which resulted in the extension of most full and outline planning consents which were due to expire between 23 March 2020 and 31 December 2020, to the 1 May 2021. This has assisted developers by giving them additional time to implement schemes that had been delayed by the Covid-19 pandemic and lockdown.
- 2.32 The Council has continued to support developers throughout the Covid-19 pandemic in order to ensure that development is brought forward across the District in order to ensure that five year housing land supply requirement is met

<sup>&</sup>lt;sup>16</sup> Business and Planning Act 2020

in the future. The Councils' development management team effectively adapted to working from home mandate and has continued to offer pre-application advice, as well as continuing to determine planning applications via virtual Planning Committees.

#### **Economic Climate and Market Conditions**

- 2.33 The health of the economy and the strength of the housing market will always be a major factor for the supply of housing. In terms of the previous economic recession period (between 2008 and 2013), net housing completions actually rose substantially from an average of 367 dpa between 2007/08 to 2009/10 to an average of 667 dpa between 2010/11 to 2012/13. Following the adoption of the Wealden District Core Strategy Local Plan in February 2013 and the associated housing target of 9,440 dwellings between 2006 and 2027 (or 450 dpa), housing delivery rates have consistently exceeded this housing target, with an average delivery rate of 658 dpa between 2013/14 and 2020/21. In general terms, this illustrates that previous housing completion rates within the District have largely been resilient to downturns in the national economy and in the case of the years following the adoption of the Wealden District Core Strategy Local Plan, have been exceeding the locally adopted housing target planned for, even during the Covid-19 pandemic in the 2020/21 period.
- 2.34 In terms of site viability, Wealden District Council has adopted the Community Infrastructure Levy (CIL) in 2015 (with the CIL Charging Schedule becoming effective on 1 April 2016), where it was considered by the Planning Inspectorate to provide an appropriate basis for the collection of the levy in the district and was set at a level that would not put the overall development of the area at risk. The Council as part of the new Local Plan process, will seek to commission an independent consultancy to undertake a new financial viability process top consider the new policies within the Local Plan. This will incorporate both a new CIL Charging Schedule and local/national planning policies at that time (including affordable housing) to assess whether the plan as a whole would jeopardise the viability of identified housing sites in general terms. This study will seek to confirm that specific residential development sites in the district (including new housing allocations) are economically viable, given the obligations in place/proposed at that stage.
- 2.35 The Council's latest Local Development Scheme (LDS)<sup>17</sup> published in July 2020 confirms that the Council is seeking to review its current CIL Charging Schedule and adopt a new CIL Charging Schedule by the end of 2023 (alongside the Council's new Local Plan). This work will consider the economic

<sup>&</sup>lt;sup>17</sup> See Wealden District Council Local Development Scheme 2020 - 2023

viability of new housing development at that time and will adjust accordingly to ensure that majority of new housing development can still come forward 18.

#### The Council's Five Year Housing Land Supply Position

2.36 Given the above, the calculation of the five year housing land supply position as of the 1 April 2021, in line with the NPPF (July,2021) is shown below.

<u>Table 4: Wealden District Five Year Housing Land Supply Calculation for 1 April</u> 2021 (with 20% buffer)

Housing Requirement and Supply for period between 1 April 2021 and 31 March 2026				
Five Year Housing Requirement	6,105 (net) dwellings			
	ŭ			
20% buffer (20% of 6,105)	1,221			
Five Year Housing Requirement including buffer	7,326 (net)			
	dwellings			
Total Housing Land Supply (Projected Net Housing	7,680 (net)			
Completions)	dwellings			
Five Year Housing Land Supply (Projected Net	5,362 (net)			
Housing Completions)	dwellings			
Projected Completions above/below requirement	-1,964			
Five Year Housing Land Supply against Requirement	3.66 years (or 73%)			

2.37 It can therefore be seen that there are 5,362 (net) dwellings on identified sites that are considered available, suitable and available now for the five year period, which is some 1,964 (net) dwellings less than the 7,326 (net) dwellings required to be deliverable (inclusive of a 20% buffer). This equates to 3.66 years of housing land supply, which is a slight reduction when compared to the 3.75 years supply as of 1 April 2020 that was previously reported. It should be noted that due to the HDT results for 2019, only a 5% buffer was used at that time however.

<sup>&</sup>lt;sup>18</sup> It should be noted that national planning policy changes to infrastructure funding have been suggested by the <u>'Planning for the Future – White Paper'</u> published by Government in August 2020, but have not yet been brought forward.

- 2.38 It is therefore concluded that there is currently an insufficient supply of 'deliverable' housing sites to meet the Council's five year housing land supply requirement in accordance with paragraph 74 of the NPPF (July, 2021).
- 2.39 As outlined in Table 4 above, the Council does have a total housing land supply of 7,680 (net) dwellings, but can only demonstrate that it can deliver 5,362 (net) dwellings over the next five year period between 2021/22 and 2025/26. This stresses the importance of both delivery rates and lead-in times for housing development and the requirement to have a rolling supply of new homes on a yearly basis.
- 2.40 As is highlighted in the above sections, in Wealden District, it normally takes between 3 and 5 years to deliver new homes following the granting of outline planning permission for major residential development. It is also noted that delivery rates on new housing sites rarely go beyond 100 dwellings per annum (dpa), meaning that some large housing sites will take a significant amount of time to deliver. The government is now actively monitoring the delivery of new homes and this has become a more prominent issue for planning following the first HDT test published in 2018.
- 2.41 The HDT measurement in 2020 for Wealden District Council was published on 19 January 2021, resulting in a measurement of 83% delivery against its housing requirement. This has resulted in a 20% buffer being applied to Wealden District Council's five year housing land supply requirement. Furthermore, given the HDT result was below 95%, a Housing Action Plan was also required to be published. This document is intended to identify the reasons for under-delivery, explore ways to reduce the risk of future under-delivery and set out measures the local authority intends to take to improve levels of housing delivery. The latest Housing Action Plan for Wealden was published in June 2021<sup>19</sup>.
- 2.42 Section 4 of the Housing Action Plan focuses on the intervention options open to the Council, recognising that a wide range of partners will need to be involved in helping to achieve the objectives of the Housing Action Plan, including landowners, developers, registered providers and development bodies, as well as infrastructure providers, to ensure that more new housing is delivered within Wealden District. This will in turn support the Council's objective of both gaining and maintaining a five year housing land supply position in the future.
- 2.43 The appendices below provide detailed information on individual sites that are considered to make up the Council's five year housing land supply position and

<sup>&</sup>lt;sup>19</sup> Wealden District Council Housing Action Plan (June, 2021)

provides a timeline for their development (with the exception of sites of 4 (net) dwellings or below that are simply listed).

Appendix 1: Projected Delivery of Housing Developments with Planning Permission (small sites with 9 or less (net) units) as of 1

April 2021
